Trading Process

Our advanced trading technology enables our traders to access multiple liquidity pools, reduce market impact, maximize trading performance, and lower transaction costs. By utilizing the latest tools, we customize solutions to fit your needs, streamline processes, reduce costs, and ultimately, improve performance.

Flexibility

We have a solution to meet your trading needs:

Broker-assisted Trading:

When you need the expertise of a professional trader, CAPIS is here. Whether you are looking for anonymity, liquidity, or just insight, our 24-hour global trading desk is ready to help.

Portfolio Trading:

CAPIS' portfolio trading desk provides hands-on, customized trading when you need to trade a portfolio or basket of securities. Our agency structure offers anonymous, transparent trading without sacrificing control.

Global Trading Network:

CAPIS has a worldwide network of broker partners who are experts in the local markets they serve.

Lack of Conflicts

Our independent agency structure offers trading expertise without the traditional conflicts of some brokerage firms. As an unbiased trading partner, we never compete with our clients' order flow. We do not engage in proprietary trading, nor do we produce proprietary research. Your trading objective is our only interest.

TRADING | TRANSPARENCY | TRUST
