### Desk Summary:

16 Traders

17 years average experience:

- 9 U.S. Equity
- 3 Fixed Income
- 3 International
- 1 Derivatives

## Order Creation

Whether you use your own Order Management System or technology provided by CAPIS, you maintain control of order creation and protect your investment process.

## Order Routing

Your CAPIS trader seeks best execution, making routing decisions based on your instructions, the liquidity profile of the security, and your commission budget.

## Venues

CAPIS has access to all major exchanges, dark pools, algo strategies, crossing networks and alternative trading systems. The lack of affiliated conflicts allows our traders to focus only on best execution.

## TCA

Trade Cost Analysis based on VWAP and Arrival Price benchmarks across all executing venues, including algo suites, dark pools and direct attribution brokers.

## Technology

Our technology partners (Fidessa and LiquidityBook) allow us to offer in-depth reporting of broker attribution and CSA recaps monthly, quarterly and annually.

## Pricing Models

- CSA or Execution-Only
  - CAPIS collects commission for execution-only and/or CSA.
- Direct Attribution
  - CAPIS routes to other brokers and retains a fee at settlement.
- Cash for Services
  - CAPIS can bill the manager on a cash for services basis.

**(or any combination of the above)**

# Combine SMA / Wrap with Institutional Outsourced Orders using ARC

CAPIS ARC simplifies post trade Allocation, Reconciliation and Clearing and mitigates the inefficient practice of sponsor rotation. This results in reducing market impact, information leakage, and account return dispersion.

**Enhances Outsourced Trading Process:** Allows RIA's to utilize ARC while employing the full benefits of our Outsourced Trading Desk.

**Limit Sponsor Rotation:** Investment managers will no longer be subject to the time-consuming, inefficient process of sponsor rotation.

**Demonstrate Best Execution:** CAPIS ARC gives managers the freedom to execute orders with CAPIS or their broker of choice.

**Create Blocks:** Wrap and Institutional orders can be executed as a block, promoting parity and best execution for all accounts.

**Simplify Operations:** CAPIS ARC automates the step-out process reducing the amount of time spent on operational tasks.

### U.S. Equities

**Jason Gatewood**, Senior Vice President, Director U.S. Equity Trading, joined the firm in 2002 as a NASDAQ and international trader. Prior to his employment with CAPIS, Mr. Gatewood was an options and equities trader with Ameritrade and a credit risk analyst with First Command.
